I second the question of noise and use. It seems every time I look up, it's going by. Every day.

Dear Staff, Supervisor Pine (and neighborhood Bcc'd)

There has been a backhoe or other earth mover driving across Cobblehill and New Brunswick between the subject lot on an ongoing (and at times near-constant) basis. For example, dozens of times today alone. Between lots 9/10 to lot 11, it drives backwards.

Does the permit allow for this kind of ongoing use of the roads between the subject lots?

Is this safe?

Is this necessary?

Is there a reason a second backhoe can't be used instead, in order to avoid this excessive road use and noise?

Thank you for your time and consideration.

Very truly yours,
Dave
