RACE

Terminations, Revocations and Flashes

There were forty-nine (49) terminations during the reporting period. Sixty-three percent (63%) were successful.

| Total # of Supervisees Successfully Terminated | | Total # of Supervisees Unsuccessfully Terminated | |
|--|----------------|--|---------------|
| PRCS – 17 | MS – 14 | PRCS – 4 | MS –14 |
| <ul style="list-style-type: none"> • Early Terminations: 3 • Normal Terminations: 14 | | | |

In the reporting period, we filed a total of seventy-three (73) revocations, with PRCS having forty (40) and MS having thirty-three (33) revocations. The breakdown by violation category is below:

| Violation Type | PRCS | MS | % of Q1 Revocations | YTD % |
|------------------------|-----------|-----------|---------------------|-------|
| Property | 5 | 4 | 12% | 12% |
| Drug/Alcohol | 4 | 8 | 16% | 16% |
| Crimes Against Persons | 4 | 1 | 7% | 7% |
| Technical | 17 | 16 | 46% | 46% |
| Other Crimes | 10 | 4 | 19% | 19% |
| TOTAL | 40 | 33 | 100% | |

Generally, the population is reoffending by committing crimes similar to those for which they are on Realignment, namely non-serious, non-violent, non-serious sex related crimes.

Forty-six percent (46%) of revocations were for technical violations. Technical violations of supervision are filed when supervisees abscond or fail to abstain from substance use. It is important to note that the Probation Department usually files formal revocations after lower sanctions have been attempted, including flash incarcerations for PRCS cases. However, at times, officers may decide that a formal revocation is more appropriate than utilizing lower sanctions, depending on the circumstances of the violation. Fifty-five percent (55%) of the revocations filed were for new law violations involving crimes against persons, property, drug/alcohol related crimes as well as other crimes.

There were twenty-six (26) **flash incarcerations** during this reporting period.

There were no supervisees whose charges were reduced because of **Prop 47**.

There were three (3) MS supervisees whose charges were reduced because of **Prop 64**.

Three (3) cases were **transferred** to other counties for supervision.

Recidivism Definition

San Mateo County: Arrest and/or Charges Filed within 3 years of Last Incarceration in San Mateo County, including warrant arrests, PTA/Court Sentence but *excludes* PRCS flash incarcerations/Revocation, 647/849B1 (no charges filed) or dropped charges.

Attorney General: An arrest resulting in a charge within three years of an individual’s release from incarceration or placement on supervision for a previous criminal conviction

BSSC: A conviction of a new felony or misdemeanor committed within three years of release from custody or committed within three years of placement on supervision for a previous criminal conviction.

San Mateo County Quarterly Realignment Bulletin

Quarter 3: July-September 2017

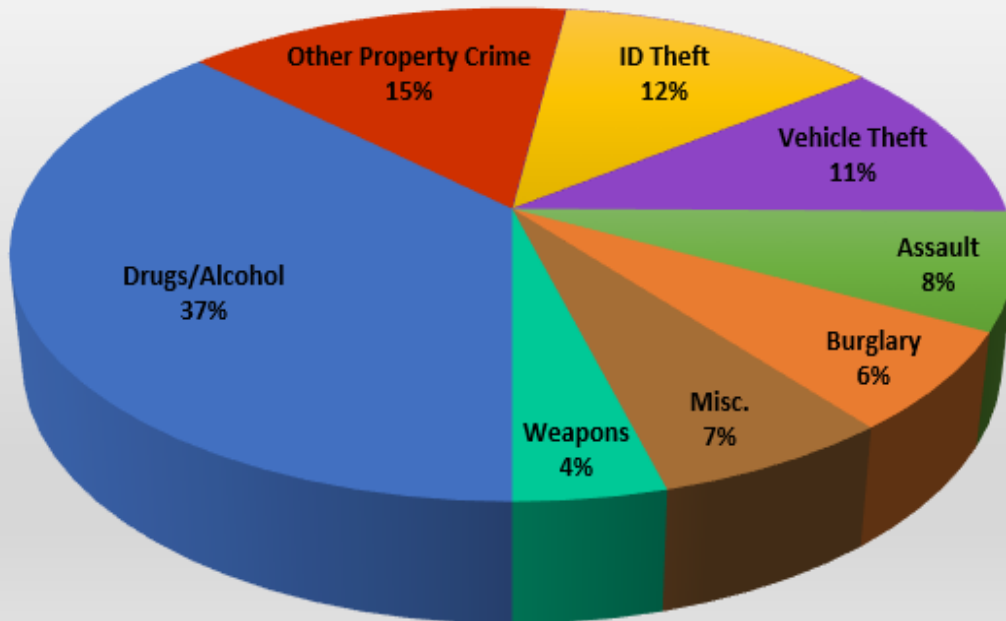

Executive Summary:

Offenses committed by the supervised and in-custody realignment populations in San Mateo County during July-September (Q3) continue to show that this population commits drug and property crime offenses. There is no significant involvement in serious or violent crime.

Overview:

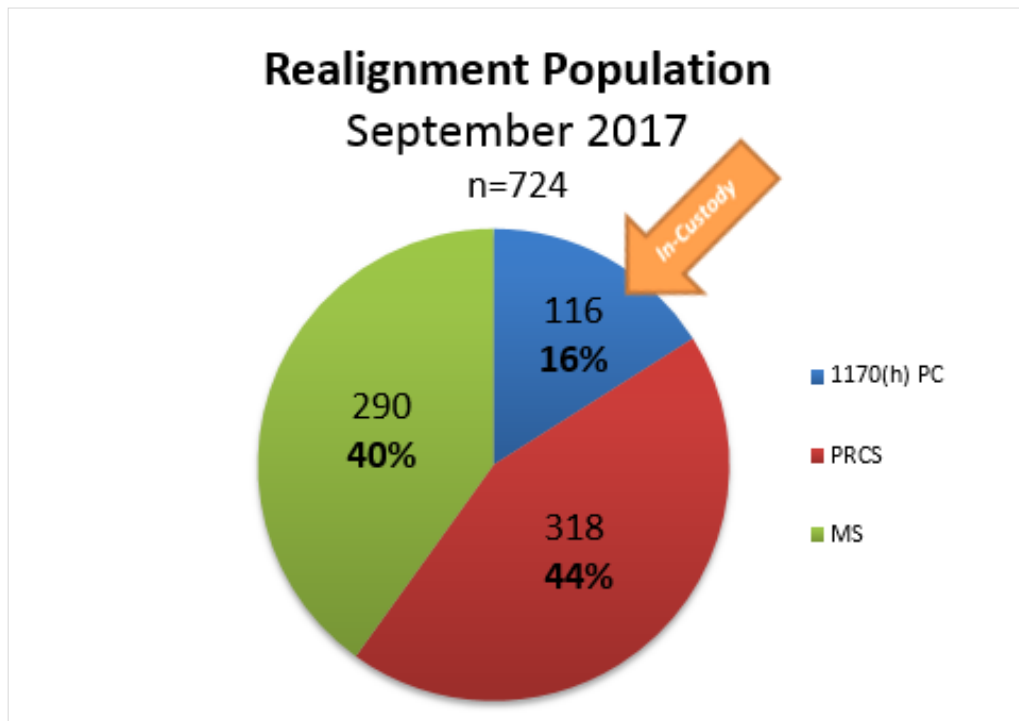

During Q3 drug/alcohol offenses, other property crime, and identity theft emerged as the top 3 committing offenses for the realignment population (this includes the new supervised cases and in-custody realignment offenders). Please note that "other property crime" refers to offenses such as grand theft, vandalism, and possession of stolen property, etc. "Miscellaneous" refers to a number of assorted offenses that do not amount to any one category. These offenses include but are not limited to: reckless evading, stalking, pimping & pandering, gang related offenses, and elder abuse. *The data used for this analysis was derived from information provided by the San Mateo County Probation Department and data from the San Mateo County Jail.*

San Mateo County Realignment Population Top Committing Offenses 2017 Q3, n=169

Note: Although the reader may be inclined to correlate the top realignment offenses with actual crime trends, please be advised that the realignment population is a small population compared to the overall offender population in and out of custody.

AB109: San Mateo County

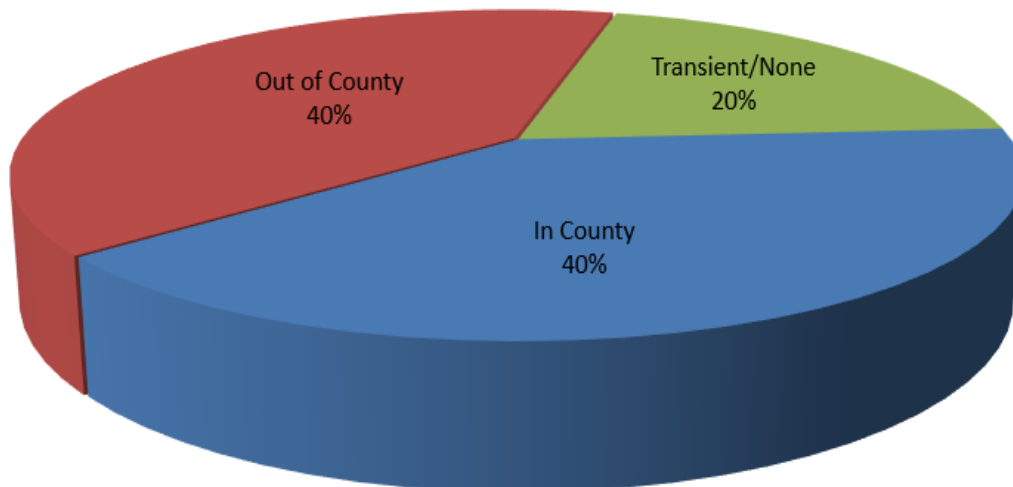

Note: It is possible that there are a small number of offenders that may have been double counted depending on their in-custody or out-of-custody status at the time these numbers were generated. This data was obtained from different sources (probation, jail) and therefore may overlap slightly. However the preceding analysis provides a general picture of the San Mateo County realignment population.

Service Connect HSA Dashboard

FY 17-18, Q1 (July 2017 – September 2017)

New Intakes

- There were 99 intakes in Q1 of FY 17-18, 49% were AB109 participants, 43% were Unified Re-entry, and 8% parole.
- From Q2 of FY 16-17 through Q1 of FY 17-18 of the AB109 and Unified Re-entry population, 47 % of the intakes were Unified Re-Entry and 52% were AB109. This is demonstrating a slow but steady increase in Unified Re-Entry population over the last year.

Eligibility/Benefits

- In Q1 of FY 17-18, 113 applications were received for all programs (CalFresh, General Assistance, and Medi-Cal) with 53 applications approved.
- During this quarter the highest number of applications continues to be CalFresh with 192 applications. General Assistance had 142 applications, and Medi-Cal had 116 applications.
- Of the 142 General Assistance applications from Q2 of FY 16-17 to Q1 of FY17-18 only one resulted in approval. General Assistance applicants withdrew in lieu of employment.

Employment Services

- There were 91 participants who gained employment in Q1 of FY 17-18: 43 unsubsidized placements, 43 subsidized employment at 550 Jobs!, and five placed in offsite employment.
- Participation in 550 Jobs! from Q2 of FY 16-17 to Q1 of FY 17-18 has trended upward with unsubsidized placements averaging 43 placements per quarter.
- Courier, automotive, moving, and general labor were the leading types of businesses to employ participants in Q1 of FY 17-18. Other leading businesses were accommodation & food services, retail trade, transportation & warehousing, and construction.

Services Provided

- Transportation continues to be the most requested service averaging 118 served during Q1 of 17-18. An average of 94 participants per month were provided with food assistance and average of 41 participants per month received emergency housing support.
- Overall, during Q1 of FY 17-18 an average of 289 participants were served per month with supportive services.

Peer Support Services

- Peer Mentors engaged 81 participants during Q1 of FY 17-18. The three major categories of services provided were transportation, phone calls/check-ins, and face-to-face meetings. These services accounted for 88% of peer services received by participants during the quarter.
- There were 12 support group meetings held in the 1st quarter with a total of 57 participants who attended. There was an increase of meeting participation due to a pilot program launch of a Wellness Passport Program initiated by BHRS and HSA staff to increase engagement.

Service Connect HSA Dashboard

FY 17-18, Q2 (October 2017 – December 2017)

New Intakes

- In Q2 of FY 17-18 there was a total of 107 intakes, an 8% increase from 99 in Q1 of FY 17-18.
- AB109 intakes surpassed Unified Re-entry intakes in Q2 of FY 17-18 as there were 42 AB109 and 55 Unified Re-Entry intakes.

Eligibility/Benefits

- There were 110 applications received in Q2 of FY 17-18: 46 CalFresh, 44 General Assistance, and 20 Medi-Cal, with 40 applications approved.
- Denials of applications were mostly due to participants being residents of another county, not showing up for appointments, and failing to provide required documents.
- General Assistance had no approvals as participants withdrew applications and chose employment.
- In FY 17-18, a total of 144 applications for CalFresh and Medi-Cal, 92 of those applications have been approved.

Employment Services

- There were 59 participants who gained employment in Q2: 46% subsidized placements at 550 Jobs!, 44% unsubsidized placements, and 10% offsite placements.
- Non-profit and assembly/packaging business were the leading businesses that hired Service Connect participants in Q2 of FY 17-18, as well as, construction, accommodation & food services, and retail trade.
- The average wage increased from \$14.80 in Q1 to \$15.70 in Q2.

Services Provided

- An average of 272 participants a month were provided with supportive services in Q2 of FY 17-18.
- In Q2 of FY 17-18 the most requested service was transportation with an average of 122 participants a month served. An average of 71 participants per month were provided with food assistance, an average of 42 were provided with clothing support, and emergency housing support continues to average around 38 participants per month.

Peer Support Services

- In Q2 of FY 17-18, 95 participants were provided Peer Support.
- Transportation accounted for 38% of the services provided, 30% of services were face-to-face meetings, 22% was phone check in with participants, and miscellaneous services such as administrative support accounted for 10% of services provided.
- There were 12 support group meetings held of which 32 participants attended.
- A graduation celebration occurred in November, where 22 participants were recognized for either successfully completing probation or successful re-entry for 6 or 12 months.

Service Connect BHRS Dashboard

*FISCAL YEAR 2017-2018 FIRST QUARTER
SUMMARY REPORT NARRATIVE*

AT-A-GLANCE: All Time Total BHRS Referred, Served, Number of Services, or Booking Encounter

The total number of participants referred to BHRS for treatment since the inception of the Service Connect is 2,008 and of these, 1,019 entered into treatment and/or recovery plans (these participants were served by BHRS and is a lower number because not all assessments result in treatment). Referred is defined as participants showing up for the first post-referral appointment and does not include those referred, but who did not follow through on the referral. This graphic also represents the total number of services (both mental health and substance use treatment) provided to participants during the first quarter of FY17/18. Service type detail for the first quarter is presented in the pie chart at the bottom of the dashboard. The number of services has generally grown as compared to previous quarters.

Service Connect Cases with a Service

This graph represents total Service Connect participants that received at least one BHRS service. The numbers do include participants that continued from quarter to quarter, so a participant could be counted more than once in each quarter if their case was open across multiple fiscal quarters. Therefore, this graph indicates the total open cases from the previous quarters for reference, the total open cases as of the second quarter, and the newly open cases for the third quarter of this fiscal year.

Engaged Participants with Four or More Services in a Year

“Engaged” is defined as a participant that has received four or more services. This means that the participant has returned to BHRS for multiple appointments regarding different services, which demonstrates that the participant is engaged in treatment because they actively participate. The current report generally reflects a reduction in engagement from FY16/17Q4 to FY17/18Q1.

Percent of Participants with Substance Abuse Recovery Plan or a Mental Health Treatment Plan

This graph presents what percentage of Service Connect participants who had a mental health treatment plan or a substance abuse recovery plan. Recovery plans are typically at a rate of two to one as compared to a mental health treatment plan. However, trends in the first quarter show to have a growth in mental health services surpassing AOD services. It should be noted that co-occurring participants are not represented.

Average Days in Treatment In and Post Custody

This graph shows the average days a patient spends receiving treatment for Alcohol and Other Drugs, as well as Mental Health Services. You can see there has been a trending dip in AOD services and an increase in MH services. Further investigation will be undertaken to better understand this trend.

Mental Health and Alcohol & Other Drugs Services Provided by Service Connect

This pie chart reports mental health and substance abuse treatment services provided by BHRS to Service Connect participants for the first quarter of FY 17/18. The top five services utilized in order are: Mental Health Services, AOD Residential, Mental Health Case Management, Mental Health Residential and Sober Living.

Mobile Health Van Services

This graph shows data for all four quarters for Mobile Health. Notable changes for the first quarter are a decrease across the board except for medical which remained the same as the previous quarter. This is a typical first quarter trend.

Correctional Health Services

Correctional Health data presents the total participants that flow through Correctional Health in each quarter, the number of participants screened, the number treated medically, for mental illness, and for substance abuse. These numbers are trending consistently, but are significant for the first quarter.

Service Connect Cases with PES Counts

A Psychiatric Emergency Services (PES) count is when a Service Connect participant has presented themselves at PES. Those participants that were not admitted are shown as a “visit” and those admitted are shown as “inpatient.” Involvement with PES is only counted if enrolled in Service Connect, counts do not include episodes when subject was not a participant in Service Connect. The first quarter of FY17/18 shows there has been no change when compared to Q4 of FY16/17.
