Subject: Highlands Comment - CEQA & Request for public hearing for Highlands construction project

CAUTION: This email originated from outside of San Mateo County. Unless you recognize the sender's email address and know the content is safe, do not click links, open attachments or reply.

Dear Ms. Leung,

My name is Nicole Lee. I'm a resident of the San Mateo Highlands at 20 Burgoyne Ct. Regarding San Mateo County's notification letter dated May 3 with subject "Consideration of a proposed Minor Modification to an approved Resource Management (RM) Permit (PLN2006-00357) for the development of Lots 5, 6, 7, and 8 (BLD2016-00161 through BLD2016-00164) in the San Mateo Highlands Area", because of the significant impact this construction project will have to the hillside open space along Ticonderoga Drive, which includes a possible increased risk of a landslide in the area, and the significant changes to the originally proposed earth grading activity, I request that the County prepare a supplemental environmental impact report document, and hold a public community hearing about the construction project

The amount of grading is more than doubling from what was originally approved, will more than double truck trips and last three times longer than before. A supplemental EIR should be prepared here. This is not a minor modification by any standard!

I also believe this EIR CEQA process is incomplete and unfair. There should be a 60 day review, published responses to comments, and a hearing on the grading! I hope that you will hear our calls for extension as well as hold a public community hearing to speak with us in person.

Thank you,
Nicole
